

BRUNO SMITH SAGAYAM

Cloud & AI Operations Engineer | AWS · Azure · Python · MLOps | Remote-Ready

226-289-9343 | brunosmith2799@gmail.com | London, ON, Canada | brunosmith.me | linkedin.com/in/brunosmith27 | github.com/brunosmith27

PROFESSIONAL SUMMARY

Cloud and AI Operations professional with 10+ years of enterprise IT experience across banking, MSP, and global enterprise environments, now specializing in cloud infrastructure, AI system operations, and ML pipeline deployment. Skilled in AWS SageMaker endpoint management, Azure AD administration, and PowerShell automation — with hands-on experience directing end-to-end ML pipelines covering data ingestion, model training, hyperparameter tuning, and live inference deployment. Known for exceptional service reliability, including 96–98% CSAT scores and 98%+ SLA compliance maintained in high-stakes 24/7 environments. Currently completing an Ontario Graduate Certificate in AI with Machine Learning at Humber Polytechnic (2026). Azure AI-900 certified. Available immediately for full-time remote roles worldwide; eligible to work in Canada with no sponsorship required.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS SageMaker · S3 · IAM · boto3 · Microsoft Azure · Azure AI Services · Azure Active Directory · Office 365 · Docker

AI & ML Operations: Python · XGBoost · TensorFlow / Keras · Scikit-Learn · NumPy · Pandas · NLP · TF-IDF · Model Deployment · Endpoint Management · Bayesian Hyperparameter Tuning

Automation & Scripting: PowerShell · SCCM · Workflow Automation · ServiceNow · JIRA · Salesforce Administration

Networking: VPN · LAN / WAN · VLANs · DNS · SSL / TLS · Windows 10/11 · macOS · PXE Booting

Tools & Practices: Git · GitHub · Jupyter Notebook · VS Code · ITIL · SLA Management · Technical Documentation

ML PROJECTS — FULL CODE AT [GITHUB.COM/BRUNOSMITH27](https://github.com/brunosmith27)

Bank Deposit Prediction — ML Pipeline on AWS SageMaker *Python · AWS SageMaker · XGBoost · boto3 · S3*

- Directed end-to-end production ML pipeline on AWS: ingested 11,162 bank records from S3, orchestrated preprocessing with one-hot encoding (17 to 52 features), and managed XGBoost model training on cloud compute instances
- Coordinated Bayesian hyperparameter tuning across 6 automated SageMaker jobs; deployed and validated live real-time inference endpoint achieving 73.25% accuracy on 1,675 test samples
- Demonstrated cloud cost discipline by properly terminating endpoint post-inference — a production best practice critical in enterprise cloud environments

Security Access Risk Prediction — DNN vs Random Forest Analysis *Python · TensorFlow / Keras · Scikit-Learn*

- Directed cybersecurity risk scoring pipeline across 1,156 samples using signals including failed logins, access time deviation, and location anomalies
- Orchestrated comparison of DNN (MAE 4.43) vs Random Forest (MAE 5.66); identified and documented Random Forest's audit explainability advantage in regulated security environments — demonstrating business judgment beyond raw accuracy metrics

News Article Classification — NLP Pipeline *Python · TensorFlow / Keras · Scikit-Learn · TF-IDF*

- Directed 4-class NLP classification pipeline across 120,000+ AG News articles (World, Sports, Business, Science/Tech)
- Orchestrated and evaluated two architectures: TF-IDF + Logistic Regression baseline versus Deep Neural Network, benchmarked on precision, recall, and F1-score

PROFESSIONAL EXPERIENCE

IT Operations Technician | Infinity Network Solutions (MSP) | London, ON

2022 – Aug 2025

- Authored and maintained PowerShell scripts to automate Azure AD and Office 365 user provisioning, including resolving AD-to-Azure sync errors and streamlining user identity lifecycle management
- Served as primary escalation point for complex service desk issues across distributed client environments, consistently achieving 96–98% CSAT scores through ITIL-aligned root cause analysis and structured resolution workflows
- Managed endpoint deployment, configuration, and compliance for 200+ Windows 10/11 devices in distributed environments; built and maintained knowledge base of recurring issues to accelerate team-wide resolution times
- Configured and maintained enterprise network infrastructure including VPN tunnels, VLANs, DNS, and SSL/TLS across multiple client sites

IT Operations Analyst | TD Bank Group | Toronto, ON

2018 – 2022

- Managed high-volume incident and service request queues in a 24/7 enterprise banking environment, consistently achieving greater than 98% SLA compliance across all service tiers
- Used SCCM to automate application packaging, patch deployment, and compliance reporting across thousands of endpoints in a regulated financial environment
- Administered Azure Active Directory and Office 365, including user lifecycle management, RBAC configuration, and group policy enforcement at enterprise scale
- Authored technical runbooks and onboarding documentation that significantly reduced new analyst ramp-up time and standardized incident response procedures

IT Operations Analyst — Salesforce Technical Team | STS InfoTech (Contractor: Cisco Systems) | Bangalore, India 2014 – 2015

- Supported Cisco global account managers on Salesforce CRM and integrated enterprise applications, maintaining 99% system uptime across global stakeholder environments
- Resolved hardware, software, and networking incidents via ServiceNow while maintaining strict SLA adherence for a globally distributed user base

EDUCATION

Ontario Graduate Certificate — Artificial Intelligence with Machine Learning

(In Progress)

Humber Polytechnic, Toronto, ON | January 2026 – September 2026

Post-Graduate Diploma — Software Testing

Fanshawe College, London, ON | 2016 – 2017

Bachelor of Computer Science

St. Joseph's University, Bangalore, India | 2010 – 2013

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Google Cybersecurity Certificate — Coursera (Foundation Level)
- ITIL Foundation — IT Service Management Best Practices

ADDITIONAL INFORMATION

Eligible to work in Canada — Canadian Permanent Resident, no sponsorship required

Available immediately for full-time remote roles worldwide; open to hybrid arrangements in Canada
